## GARDENING IN NOVEMBER

It is time to fertilise the lawn. Use a good lawn fertiliser and if we don't have a lot of rain, then we need to put plenty of water on them so the fertiliser does not burn the lawn.

Roses should be sprayed with Malathon or Rogor if aphids appear and you can also spray with Zineb or Benlate for Black Spot. If you go to your nursery, they may stock a general rose spray which will treat most things with one chemical. Also, feed your roses with a complete fertiliser.

Plant salad vegetables such as lettuce, squash and cucumber now for a Christmas harvest.

It is also time to watch for fruit fly as well, they are active on developing fruit and tomatoes. Telltale signs are small pockmarks on the fruit. Tomatoes have a small pinprick and the surrounding area stays green. Apply a splash bait made from 7ml of maldison and 50g of sugar, dissolved in 1 litre of water. Splash mixture onto leaves and trunks. Fenthion (Lebayid) and dimethoate (Rogar) will control fruit flies but must be used strictly as directed.

Feed Citrus and other fruit trees with blood and bone or all purpose plant food. Apply as far as the dripline or the extent of branch spread. Soak the area well.

It is also time to propagate English May

### Handy Hints

Clean moss and algae from paths which were in the shade during winter to make your garden safer. The simplest way is to apply neat vinegar or a mix of equal parts water and strong disinfectant. Scrub firmly with a stiff brush, leave for an hour or so and hose off residue with a strong jet from the hose. If the problem persists, repeat the process in one week. This method does not affect the plants and environment the way chemicals do.

The next meeting will be Thursday 12<sup>th</sup> November, 1998 at 10 am in the CWA rooms.

If you would like to join us at our next meeting, or just pop in for a cuppa and some good company, you are more than welcome.

Our AGM was held last meeting day. All positions were vacated. The AGM was chaired by Allison O'Brien of Collector CWA. All officers were re-elected to their positions.

It was very sad and upsetting to hear of the passing of Mercy Larkin, a very dear and loved member of CWA for over 70 years. Mercy passed away in Goulburn, although she lived most of her life at Windellama. Mercy's funeral was held at Windellama just 7 weeks ago.

Sorry that my acknowledgement to our dear member is late, although members attended the funeral, I neglected to put in my news letter and I thank Bungonia Time for putting it in for me, telling you all about our next meeting and letting you know you are welcome. Thank you. Please all come and join us for a cuppa.

## POET'S PATCH

### A Farmers Rhyme

I'll tell you a tale of a man I know  
You'll see him out in the rain, hail or snow;  
He'll work through the day never wasting a minute  
He's a capable worker and his skill has no limit.

Though his mind is weak, his heart stands strong,  
He'll work so hard and ever so long.  
He'll keep pushing on when things don't go well,  
And he'll fight long and hard when the going is hell.

You'll see him come through and right all the wrongs  
And that's why you know he's where he belongs,  
But when the time comes and he's no longer able  
To work at his love and keep things all stable,  
He'll retire and pass his life's work to his son  
And he will repeat what his Father has done.

And then he too will live for each day  
When the hopes and the fears all come his way  
And now you may ask, who on earth can this be!  
Well, he's the Aussie Farmer, he's you and he's me.

## Anti-Airport meeting

Congratulations to the organiser, Cynthia Harris! Last month's public meeting saw Bungonia Hall packed to the rafters with almost the same number of apologies from those who wanted to be there but had previous commitments.

There were people from all over the Shire as well as Goulburn so it seems that anti-airport feelings are very rife in the community.

The meeting agreed to form an action group and elected a dozen or so eager committee members who meet on November 1.

A quick whip around resulted in a starting kitty of close to \$500 for fighting this issue.

I expect there will be lots of information flowing from now on and more meetings to go to. Keep up the good work!

## Flag

Bungonia Bush Fire Brigade has at last received a banner for the bare flag pole outside the fire shed. It has taken over 12 months but the Commissioner has fulfilled his promise.

I hope the promises regarding training and accreditation for those doing the courses takes a little less time than that.

## Talking Waste

A pilot waste management board for the region is being established under the Waste Minimisation and Management Act 1995. Council's representatives on this Board will include the Mayor, Cr Paul Stephenson, and General Manager, Col Wotton.

In the meantime, the North Sydney Waste Board selected Muswellbrook over the Woodlawn Mine site for their waste contract, however, indicated that Woodlawn should be developed as an alternative.

Collex will be going ahead with

their EIS for the site and Council is urging them to consider extending the railway right to the site so that there is no transfer of waste containers from rail to road at Tarago.

The EIS is expected to be on public display, for comment, from about mid-November so if you are interested in seeing the documents, call Council at that time to check out the details.

## Building Application

A building application for a house on Mountain Ash Road was refused because the property was much smaller than the minimum 40 hectares required for rural zones.

Although there are several smaller blocks nearby with building approvals, it is the old rules of parish portions and concessional allotments that have allowed this to happen. Council stands firm on its existing policy of 40 hectare minimums for rural housing.

## To Your Health

Julien Vanslambrouck of Windellama and I have been appointed to the Southern Tablelands Health Council.

This is an official community advisory group to the Southern Health Service who are responsible for public health facilities from the Southern Tablelands across to the coast and down to the Victorian border.

We have already toured the health facilities in Goulburn and will be looking at a number of issues important to our community.

There are still some positions on the Health Council to be filled. If you are interested in nominating for one of these, please give me a call.

• Women's health nurse, Christine Goodrich, from the Goulburn Community Health Centre will be holding regular monthly clinics at the Marulan Doctor's surgery starting Monday 16 November.

The clinic offers a free, confidential, personalised service and includes pap

smears, breast examinations, pregnancy testing, counselling and information on a whole range of issues for women. Ring 4821 3913 for an appointment.

## Centenary 2001

The NSW Centenary of Federation organisers have finally got their act together and are asking that "local" committees be formed to organise local events and help co-ordinate nationwide celebrations.

In all the pages of information they have sent, there is no mention of any funding, but let's not allow that to deter us from doing something positive for ourselves.

Council is co-ordinating our "local" committee so we would like to have nominations from each of the village areas in Mulwaree. Interested? Call me for full details.

## Proudly Accepted

Our engineering staff, headed by Robert Mowle, have won the National Award for Innovation in Local Government for the augmentation of Marulan's water supply.

The project created a first class system at a fraction of the cost proposed by Government Departments.

The award is in the Engineering Infrastructure and Design category for rural Councils and is in the running for the overall winner's prize, to be announced in early November. Congratulations to the team!
